**Comment:**

Ewyas Harold Group Parish Council submits the following comments: Car parking is insufficient and there needs to be provision for all dwellings.

Local evidence shows current sewage system is not fit for purpose and could not cope with the additional capacity the development would entail.

Highway safety is a major issue – the development is unsustainable without provision of a continuous footpath for the entire length from the proposed development to Trappe House Corner together with a safe crossing for pedestrians at Trappe House Corner or suitable alternative location.

These measures will enable safe access to the village centre and school for pedestrians - additional signage will not be sufficient.
