Subject: Planning application comment was submitted for P200755/F

The following is a comment on application '**P200755/F**' by '**Helen Tinson, Clerk to Fownhope Parish Council**'

Nature of feedback: Support the application

Comment:

The Planning Group for Fownhope Parish Council has considered this application and is minded to support it. It was noted that none feel they have the relevant expertise to make specific comment, therefore it is assumed this new drainage system will not overwhelm existing drainage.

Concerns were raised regarding the passage of water and the route it will follow when it leaves the pond. It was brought to the notice of the council that a great deal of water currently comes off the hill and onto the land surrounding the Mill Farm properties and it is assumed that solutions to this will be considered.

Finally, we should appreciate some explanation in due course of the proposed system and final description of materials to be used and plans for orchard replacement, as described in the approved plans.
