- Mortar Mix: Lime or local sand to match stone in a semi recessed joint leaving all arises clear.
- Details and samples of external materials (brick, stone and slate) (Brochures and Information sheets supplied/available via Planning Portal)

**Brick:** Old Barnhouse

**Stone:** Vintage Tumble Callow Sandstone: Black Mountain Quarries, Hereford.

**Slate:**

SIGA 112S Natural slate (or similar). SIGA 112s (500 x 250mm) is a smooth, dark blue grey slate sourced from quarries in northern Spain. It has National Parks Approval which ensures it can be used in new build, conversion and

refurbishment projects in the National Parks. The 7mm thickness is suitable for the North of England and the 5mm for the South, West, East and Southern Home Counties including London.

Tiles for plot 15 only. Dreadnaught Collingwood Blend (smooth) head lap 65mm tile (see brochure page 29). The Collingwood Blend of plain clay roof tiles creates a rustic and elegant looking roof of enduring quality

- Details of all external doors and windows (material and colour). Bereco FSC 100% certified timber windows and doors or similar.

Bereco Brochure and NSB Timber Performance Specification available via Planning Portal

2 options. **Option1** Cottage Bar Option Doors and Windows **Option 2**
