Nature of feedback: Support the application

Comment: These fishing platforms are an important recreational asset for local anglers and also visiting anglers that stay in hotels, pubs and B&Bs. Visiting anglers contribute to the local economy and create employment opportunities.

Access to local, low cost fishing opportunities allow young people to take on a worthwhile hobby and connect them with nature and the outdoors - a proven positive factor for long term mental well being.

Safe fishing platforms are important to reduce drowning risk for those that participate in angling on that part of the river.
