19th April 2019

Dear Ms Smart,

P182726/O - Land forming Green Farm Lyonshall Kington Herefordshire

I wish to raise an objection to the above planning application.

As the adjacent landowner to the proposed poultry site, I am concerned at the plans to discharge surface water into the local drainage network via the ditch to the south of the proposed site. I wish to object against the principal of using the local drainage network as the ditch passes through my land, and I therefore do not wish for potential pollution from this site, to spread onto my land.

A poultry enterprise such as this presents a large risk of pollution and I am therefore concerned if plans are to discharge surface water into the ditch, I could have future contamination and pollution issues on my land arising from the land at Green Farm being used for poultry production. I request the council reconsider and impose an alternative method for the discharge of surface water at this site which will not affect the local drainage network.

Yours Sincerely,

Mr J Hope
