

BERRINGTON HALL PROPOSED HEATING PIPE ROUTE TO EAST & NORTH COURTYARD BUILDINGS Drawing Ref: **BH 13**

Heat main to pass between buildings, under small, cobbled section (to be photographed and carefully reinstated). Small section of modern laurel hedge to be removed and replanted after.

Heating pipe to enter East Courtyard Block, below ground, into the existing gardener's mess room. Allows for future conversion of the existing electrical heating to biomass.

Heating pipe to enter North Courtyard Block at basement level and terminate. Allows for future conversion of the existing electrical heating to biomass.
