

Planning application comment was submitted on the **04 August 2024 09:57 AM**

The following is a comment on application **P241551/N** by **Anthony Young**

Nature of feedback: Objecting to the application

Comment: Inappropriate location. Whilst the site was previously used as a Transfer Station, the proposed facility could pose significant accumulative negative issues within the area. A more appropriate site would be at Leominster Trading Estate.

Inappropriate use. A large waste disposal facility in this location, with the potential to pollute the adjacent water course and air pollution with the food production facilities nearby. There would appear to have been no independent analysis reported of these potential. issues.

Potential noise pollution. We understand there will be increased levels of transport, together with 24 hour production. Not only would this have serious negative traffic considerations, but have unacceptable levels of noise throughout. There would appear to have been no independent analysis of these issues.
