Subject: Application no. 162021

To whom it may concern-

We have lived at Barn End Cottage, Gillow Manor for 3 years, having moved up from Brighton. Our property is within 400 metres of the proposed site.

We have significant concerns in relation to the planning application. We moved to this area with the intention of living in an area of outstanding beauty. To hear about the proposed plans, we feel threatened by the visual impact, odour, noise and light pollution.

We are also extremely concerned about the effect of the pollution on the local wildlife in the woodland and lakes. I am a fisherman and so the pollution into the River Wye is also of great concern.

If this proposal goes ahead, we would have to seriously consider moving home, away from the local community in which we have formed friendships and become involved in.

Ultimately, we are very saddened about the proposed application.

Please feel free to contact us for further information, if necessary. Many thanks.

Kind regards-

Mr and Mrs Bisla-Ballam
