Subject: Reeves Hill WF - HC website

Dear Mr Tansley,

I note that several representations from members of the public (Bywater 19 April, Bond 21 April, Env. Agency 21 April, SHCG 23 April - and others ?) are still not displayed on your planning portal. SHCG has been repeatedly told that Herefs. Planning Dept no longer works with paper files. If this is so, then it is the Planning Department's duty to ensure that all relevant documents are displayed promptly.

At present your website displays inaccurate information regarding two springs which belong to Roy Lewis of Carter's farm and not to Sir Simon Gourlay as he apparently claimed on a site visit. This information, subsequently misrepresented by the Env. Agency, has been corrected in some of the missing documents referred to above.

I trust that ALL documents relevant to this application to discharge conditions will be displayed **prior** to your coming to a decision on this matter.

Sincerely,
Dr Stephen Hugh-Jones,
Chair, SHCG
