Ref plan application

P181343/F

Dear Sir,

I would like to object to the above application for development of multiple houses on Herberts Hill, Llangarron.

All the roads in and out of the village are single carriageway in most places which can barely support the traffic currently. One cannot drive anywhere without often having to reverse some distance to allow another vehicle to get through.

If the application was for just a couple of houses I would be less resistant, but planning for eight houses is impractical.

Yours faithfully

Nigel Hill
