**Subject:** Planning application comment was submitted

The following is a comment on application 'P181343/F' by 'Graham Smyth'

**Nature of feedback:** Objecting to the application

**Comment:**

While I support the need for further housing development in the village, particularly in the need for low cost housing, I believe the number of houses that is being proposed in this location is excessive. Such a development would significantly increase the road traffic in and out of the village on the single track blind bend where Herbert's Hill enters the village proper. This existing road infrastructure and design belongs to an earlier age and already requires great care by drivers. With substantially increased traffic and an absence of any footpaths it risks becoming more dangerous.
