The following is a comment on application **162920** by '**Anna Ensor**'

Nature of feedback: Objecting to the application

Comment:

The proposed development is on a flood plain, and only recently we have seen what happens - we ourselves were flooded at the back of our property, fortunately water didn't enter but by mm. Its stupidity at this time, with the climate emergency to build 1200 houses - extra traffic, everything which needs to be reconsidered with the dramatic changes which are occurring in our environment. How can we ignore the environmental impact these properties would bring. I could list the disadvantages - but I am sure you already have them - I just want to make it clear that I object strongly to the development in it's current form.
