Subject: 222138 - Planning application comment was submitted

The following is a comment on application **P222138/O** by '**Jocelyn Hardy-Bishop**'

Nature of feedback: submitting_a_general_comment

Comment:

I do not live in the affected area but I am concerned at the rate of new building going on around the county when public transport is so lacking that the new residents have no option but to use cars, thus adding to the historic congestion problems. Bearing that in mind, I believe every new house should have space for parking two vehicles off-road and an electric charging point should now be included in all new planning specifications.
