The following is a comment on application **P222728/N** by **Robert Cleary**

Nature of feedback: Objecting to the application

Comment: I am deeply concerned regarding the impact on the wildlife, water courses, noise and odour impact. Further access and egress to and from the proposed site and service roads in the area are a major concern having had near misses before with speeding drivers and poor visibility accessing the main road. If granted this will have a serious impact on the quality of lives for the human and non human residents of the area.
