

- Notes:
1. The contractor should check all heights, dimensions and sizes on-site before works commence and any errors reported to Woodsyde Development Ltd.
  2. Figured dimensions shall take preference to scaling, with any errors reported to Woodsyde Developments Ltd.
  3. Given the site is Brownfield calculation has been made for the run-off of the existing impermeable areas which provides a figure of 42.27l/s, where we have suggested a 72.8% betterment which then equates to a reduced discharge for the proposals of 11.49l/s.

 New Impermeable  
Area = 827.2m<sup>2</sup>

**Woodsyde Developments Ltd**

**Project:**  
Proposed Development at Stormer Hall Barns,  
Leintwardine, Herefordshire.
