**Subject:** 201538 - Planning application comment was submitted

The following is a comment on application **P201538/F** by '**Mike Hopkins Parish Clerk**'

**Nature of feedback:** objecting\_to\_the\_application

**Comment:**

The Parish Council has noted and reviewed the revised documentation for this application.

In their previous response it was reported that the Parish Council was concerned on behalf of the local residents of Upper Hill that the extra demand for water would have an impact on the overall water supply as the whole area of Upper Hill is dependent on bore holes.

These additional reports, albeit very lengthy, do not appear to address the previous concerns that the Parish Council raised and the detrimental effect that this development (and any future development) will have on the sustainability of private water supplies for the existing residents of Upper Hill. As a result of the failure to address the concerns, the Parish Council cannot support this or similar future applications in the area.

Local residents, who joined the Parish Council zoom meeting, also commented on the lack of visual notification within the area of both the original and this second application. As some are elderly and do not have access to the internet they would welcome a short extension to the deadline for submission of comments to allow them to respond?
