Charlotte

The proposed foul drainage will be dealt with by a treatment plant and soakaways.

Trust this email is sufficient for you to deal with this.

Regards

Colin

Importance: High

Charlotte

We will sort this out on Tuesday.

Enjoy the long weekend.

Colin

Dear Colin

To satisfy the ecologist and Natural England (site is in the SSSI Impact Zone - HRA) it will be necessary to confirm the proposed foul drainage, presumably PTP and soakaways. This can either be confirmed in writing or annotated on the proposed site plan.

Many thanks

Charlotte Atkins
