Dear Sir

Re: Residential development for up to 85 dwellings with access, associated open space, landscaping, infrastructure and parking provision, Home Farm, Belmont, Hereford

Further to the above consultation we would provide the following comments:-

We would request that if you are minded to grant Planning Consent for the above development that the Conditions and Advisory Notes listed below are included within the consent to ensure no detriment to existing residents or the environment and to Dwr Cymru Welsh Water's assets.

WATER SUPPLY

Conditions

Before construction works commence on site, a hydraulic modelling assessment shall be undertaken by the developer in liaison with Dwr Cymru Welsh Water, in order to assess the effect the proposed development will have on the existing water supply network, together with any necessary associated infrastructure works.

Reason: To protect the integrity of the existing water supply system

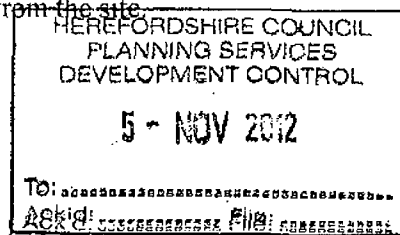

There shall be no beneficial use or occupation of any of the buildings hereby approved until such time that any necessary water infrastructure works required by the hydraulic modelling assessment referred to in the above condition have been completed and approved by Dwr Cymru Welsh Water and the Local Planning Authority has been informed in writing of its completion.

Reason: To ensure that the proposed development does not adversely affect the integrity of the existing water supply system.

SEWERAGE

Foul water and surface water discharges shall be drained separately from the site.

Reason: To protect the integrity of the public sewerage system.

glas

Glas Cymru Cyfyngedig

Welsh Water is owned by Glas Cymru - a 'not-for-profit' company.
Mae Dŵr Cymru yn eiddo i Glas Cymru - cwmni 'nid-er-elw'.

We welcome correspondence in
Welsh and English.

Dŵr Cymru Cyt, a limited company registered in
Wales no. 2366777. Registered office: Pentwyn Road,
Nelson, Treharris, Mid Glamorgan CF46 6LY.

Aydym yn croesawu gohebiaeth yn y
Gymraeg neu yn Saesneg.

Dŵr Cymru Cyt, cwmni cyfyngedig wedi'i gofrestru yn
Nghymru rhif 2366777. Swyddfa gofrestredig: Pentwyn Road,
Nelson, Treharris, Morgannwg Ganol CF46 6LY.

121

No surface water shall be allowed to connect, either directly or indirectly, to the public sewerage system unless otherwise approved in writing by the Local Planning Authority.

Reason: To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no detriment to the environment.

Land drainage run-off shall not be permitted to discharge, either directly or indirectly, into the public sewerage system.

Reason: To prevent hydraulic overload of the public sewerage system and pollution of the environment.

No development shall commence until the developer has prepared a scheme for the comprehensive and integrated drainage of the site showing how foul water, surface water and land drainage will be dealt with and this has been approved by the Local Planning Authority.

Reason: To ensure that effective drainage facilities are provided for the proposed development, and that no adverse impact occurs to the environment or the existing public sewerage system.

Advisory Notes

The Welsh Government have introduced new legislation that will make it mandatory for all developers who wish to communicate with the public sewerage system to obtain an adoption agreement for their sewerage with Dwr Cymru Welsh Water (DCWW). The Welsh Ministers Standards for the construction of sewerage apparatus and an agreement under Section 104 of the Water Industry Act (WIA) 1991 will need to be completed in advance of any authorisation to communicate with the public sewerage system under Section 106 WIA 1991 being granted by DCWW.

Welsh Government introduced the Welsh Ministers Standards on the 1st October 2012 and we would welcome your support in informing applicants who wish to communicate with the public sewerage system to engage with us at the earliest opportunity. Further information on the Welsh Ministers Standards is available for viewing on our Developer Services Section of our website - www.dwrcymru.com

Further information on the Welsh Ministers Standards can be found on the Welsh Government website - www.wales.gov.uk

Some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal we request the applicant contacts our Operations Contact Centre on 0800 085 3968 to establish the location and status of the sewer. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.

If a connection is required to the public sewerage system, the developer is advised to contact Dwr Cymru Welsh Water's Developer Services on 0800 917 2652.

SEWAGE TREATMENT

No problems are envisaged with the Waste Water Treatment Works for the treatment of domestic discharges from this site.

We hope the above is satisfactory. However, should you require further assistance please contact us on the above telephone number, quoting our reference.

Yours faithfully,

Rhidian Clement
Principal Planner

Our response is based on the information provided by your application/enquiry. Should the information change then we reserve the right to make new representation.
