Dear Sirs,

Reference planning and access application (s) 174451/174452- Objection

I have been informed (after the planning and regulatory committee meeting 25th July) and seen on Council website that Planning Notices 174452 and 174451 Former Coach House and Land at Wilcroft Bartestree Herefordshire HR1 4BB have been refused.

Referring to the objections that you received one of the factors were 2 windows on the North Side of the Coach House (Barn) that have been put in without planning permission when the roof was removed and replaced. These windows do overlook my garden.

At present these windows cause no problem as they are not glass windows but are wooden vents.

I just have a few concerns which I would like noted as below;

1. These windows have not received Planning permission but on every submission since 2002 these windows appear as existing, in correspondence from architect it [REDACTED] stated the windows are existing and have got permission.
2. The windows at present are just wooden shutters but could change to windows by the time I come home from work as we know with the slippage that has occurred at this property over the last 10/20 years.

I am not saying that these windows need to be removed as they have been there since I moved in and that is a decision that you as Planning Officer should make.

I just wanted it noted at your office that these windows have never received planning permission and that if they do change to glass windows overlooking my garden then I would be making an objection.

Yours Faithfully

Jane Colbourn
