

Planning application comment was submitted on the **15 January 2024 19:37 PM**

The following is a comment on application **P233489/RM** by **D Williams**

Nature of feedback: Objecting to the application

Comment: I strongly object to the proposed planning on the land off Millstream Gardens.

Due to recent events regarding extensive rainfall it is clear to see the village of Eardisley suffers with surface water flooding, building on this site can surely only contribute to this problem.

The brook that runs around the suggested plot and parallel to Millstream Gardens overflowed on to the properties in Orchard Close causing flooding of several properties again.

Properties on Church Road also experienced such issues with water run off plus water coming up through the drains, these properties back on to the new site. Where will all the water drain to when the suggested attenuation pond is full, the village cannot already cope.

Millstream Gardens will be altered dramatically with the prospect of 18 houses, what is now a quiet road will be no more.

The extra use by many more cars will be disruptive and a nuisance.

I have attached a photo to illustrate the flow through the brook that subsequently entered prop-ties.

D. Williams
